

Dear Parents,  
*Greetings from Al Khozama!!!*

Hope you and your family are safe at home.

In this pandemic situation to reinforce our students learning, we are pleased to introduce "***Mindspark-Personalised Math Learning***" for the students of **Grade I to X** from **26<sup>th</sup> April 2020**. It is 60 days free programme offered by Educational Initiatives with the motive of helping them learn Mathematics without fear and build a strong conceptual understanding of Mathematical concepts.

Mindspark's inquiry-based learning is driven by thoughtful investigation where the child goes through a series of online challenging practical questions that help them build mastery in Mathematics at their own pace as they will be using the Minspark from home.

**The login credentials for students will be provided by the respective class teachers shortly.**

For more information, please visit the website at [www.mindspark.in](http://www.mindspark.in)

Kindly encourage and support your ward to access Mindspark and practice the questions at home using the given username and password.

For any further queries, please contact: **Mr. Unnikrishnan [0578251909]-Boys' Section**  
**Ms. Aparna [0571279985]-Girls' Section**

Stay safe and stay home!!

Regards  
K. M. Abdul Azeez  
Principal
