PART-A

Read the passage given and answer the following questions:

Rohan was standing by the window. He was waiting for his father. After an hour, he's father drove in. He parked he's car in the car shed. Rohan rushed outside to greet him. He hugged his father and asked him, "Where have you been? I was so worried! Why didn't you pick up the phone?"

"Oh! My dear son, I was driving. But was there anything urgent? Why did you call so many times?"

"Dad, it's our gardener, Adnan. He fell down and sprained his leg. I put some ice cover on it and tied it with a bandage."

"That was a great step, how did you know that we put ice over the sprained part?"

"Oh! Dad, our Science teacher gave us tips during a group discussion on first aid."

"But Rohan, Where is Adnan?"

"I called up the nearby dispensary and the doctor has given him a painkiller. He is safe but is under observation for twenty four hours in the dispensary."

"You did a great job. I am proud of you, my son. Tell your Science teacher about the incident. She will feel happy that children listen to whatever she explains."
