HOLIDAY HOMEWORK

Dear Parents,

Wishing you all a fun filled and productive Summer Vacation. May your wards venture to do a variety of activities and be at their creative best!

The focus of the holiday homework for our children is to practice the learning that has happened in the first term, so the transition into the second term is smooth.

Our intention is for the children to relax and have fun therefore we request you to please allow the child to complete the homework at his/her own pace. For example, twice or thrice a week.
